Samuel McDaniel Dallas Public Facility Corporation 1500 Marilla Street, Room 6CN Dallas, Texas 75201

Mr. McDaniel,

Hilltop Securities (HTS) has prepared an initial underwriting assessment from the developer provided proforma and sources & uses for HSR LBJ Phase I development. I hereby certify that Hilltop Securities has experience underwriting affordable multifamily residential developments and do not have a financial interest in the proposed development, developer, or public facility user for this proposed development. Below is a summary of the analysis completed.

Rent Subsidy- The developer has included 5% of the units at 50% AMI, 5% of the units at 60% AMI, 40% of the units at 80% AMI and the remaining units will be at a fair market rate. The year 1 rents subsidy is currently estimated at \$1,276,284. Using a 3% escalator on future rents and allowing time for construction, a 15-year rent subsidy of \$20,954,822 is expected.

- **Estimated GP Revenues** The term sheet/ MOU indicates the following fees are expected to be returned to Dallas Public Facility Corporation (DPFC). A summary of fees received over 15 years is included in HTS analysis.
 - PFC Structuring Fee (Received at Closing) \$250,000
 - Sales Tax Savings Fee (approximately 25% of the Sales Tax Savings)
 - Annual Rent Payment \$1,000,000 to be paid 6 months after the property reaches 90% physical occupancy (Year 1). Commencing at the start of Year 6, and annually thereafter, Tenant will pay PFC total rent of \$231,855 thereafter the payments shall increase by 3.0% per year.
 - Sale or Refinance Fee (20% of the net sales price at a capital event after a 10% preferred equity return.)
 - Subsequent Sale or Refinance Fee (2% of the gross sales price)
- Estimated Property Taxes Three 15-year property tax estimates have been completed.
 - 1. Based on the 2024 assessed value per DCAD.
 - 2. Based on 80% of the total cost of the development
 - 3. Estimated property taxes based on the closing date and construction schedule.

The remaining analysis that included 15 year estimated property taxes one year from the 2024 assessed value, a half value from the 80% of the construction cost for one year, and the remaining 13 years are the 80% of construction cost estimate. Hilltop believes this will give an accurate representation of how the property will be valued during the rest of construction through completion if the property were to stay on the tax rolls.

- Rent Subsidy and PTA Comparison Comparing the rent saving generated by the property and the fees to be earned by DPFC over a 15-year period against the estimated property taxes over a 15-year period a Public Benefit Percentage of 127.22% is generated using a 5% Cap rate to estimate a sale at year 5 after stabilization, using a 7% Cap rate generates a 102.88% Public Benefit Percentage, assuming no sale event occurs a 75.56% Public Benefit Percentage is generated.
- 15-year Proforma with Property Taxes Including the estimated taxes to the operating expenses will likely cause stress issues which would not provide a comfortable Debt Service Coverage (DCR) needed for this project to be financed. Industry minimum DCR is 1.15. If a property tax abatement is not received the combined Phase I will not meet this minimum threshold until year 11 after stabilization. The loss of the property tax abatement will reduce the 15 yar available cashflow by just over \$33.4 million, which is a large enough reduction for equity to likely not pursue the transaction. Accordingly, Hilltop does not believe the development with the proposed affordability requirements would be feasible without the participation of DPFC and the property tax exemption.
